Notice to our Patrons and the Public. THE undersigned have entered into a copar necessity in the business of publishing and printing, under the style and firm of "CHAPMANS & SPANN." The business of the State Sentinel Office, now MANS & SPANN." The business of the State Sentinel Office, now probably one of the most extensive and complete in the Western Country, will be continued as heretofore, with all necessary additions to compete successfully with any kindred establishment. Our facilities for fine work, now extensive, will be increased as required; and our workmen shall not be surpassed either in excellence or swiftness.

The thanks of the proprietors are hereby extended to their former patrons, and the assurance also, that it is in their power, better than ever, to meet their orders with promptness and despotch. The favors of the public are respectfully solicited.

We may add, in this hasty sketch, that in no respect will the character of the paper be changed, as regards its views of democratic principles.

To my Friends and the Democratic Party.

It will be seen from the above announcement that I have become connected with the Sentinel establishment. If any reason for this change was due either to myself or the public, the most satisfactory could be given. I had spent time and money upon the Indiana Democrat without adequate return, and its discontinuance was necessary to protect myself from further loss. I have made the present arrangement in the hope that it may be more beneficial both to myself and to the Democratic party. A continuance of the patronage of my friends is respectfully solicited under the new arrangement. Preparations have been made by the new firm for the execution of every description of printing, in a manner not to be surpassed by any establishment in the West.

J. S. SPANN.

The "Indiana Democrat," at Indianapolis, has been discontined, as alleged from different causes, prominent among which is the absence of A. F. Morrison, the editor. Mr. Morrison has the appointment of Commissary in the Army in Mexico. The Chapmans have the field of Democracy to themselves again, and we are glad of it, although we do not wish to be understood as rejoicing at the downfall of the Democrat; but we believe that one well conducted paper can do more than two can, especially where there is not perfect harmony between them.

The Sentinel is a good State paper, and its prospects will brighten under these circumstances.-Lawrenceburgh Register.

The generous feelings towards both the Democrat and State Sentinel so gentlemanly expressed, and its more particularly those noticed in this day's paper. That the arrangement will be beneficial to the Democratic party, we cannot suffer ourselves to doubt ; and, as often before stated by us in the Sentinel, when the Democratic party are tired of our services, we will not a less thankless one.

STATE BANK DIRECTORS .- The following persons were chosen directors of the State Bank of Indiana.

COUNTERFEIT.—The Cincinnati Enquirer describes a counterfeit on the State Bank as follows: It is pretty well executed; but may be known by being shorter and narrower than the true bill. The complexion is much darker, and the figures blacker. It to be officially published, as a just tribute to their merits. An order of this kind was passed by Conhas the letter F. upon both ends. A practised eye may easily detect the imposition, though those handling little money will be likely to be imposed upon. It is signed John Douglass, Cashier, and Merrill, President, and is of the denomination of one dollar.

THE OHIO STATESMAN .- Col. Medary announces to the public that he is again in possession of the and once more offer my services as editor to the Democracy of Ohio." For the sake of the party we more competent for command than many of their hope he will; for his own sake perhaps we ought to officers." wish otherwise.

K. Journal every week!

New Jersey has gone Whig, as usual.

HON. JAMES THOMPSON, OF PENNSYLVANIA.-This sterling democrat, whose defeat was claimed by (and conceded to the whigs, is re-elected by a majority of 229. His district is composed of some of the most thinly settled counties of the State, and was probably more affected by the storm than any other. In a letter from Judge T. to our Representative, which we have seen, he says-"We had the most unmitigated storm during the whole of the election day, throughout the State, that has occurred for thirty years. It our votes have not been polled." The Judge is con-

Sense AND Nonsense .- A remarkable combination of these opposite qualities developes itself in one of the Washington correspondents of the N. Y. Journal of Commerce. For instance, speaking of reinforcements to Gen. Taylor's army, he says-

"A due portion of the Northern troops ought certainly to be called out, because they are equally well suited to the various climates of Mexico; more careresourceful and skilful in the many arts of life that the privations of a camp or a march call into use."

Now as to this last qualification, (which is spoken of as one of the special characteristics of Northern correct conclusion that "one well conducted paper can troops,) it is one for which the western population is do more than two can, especially where there is not pre-eminently remarkable. Why, in truth, half our perfect harmony between them," we fully appreciate, people, from the cradle to the grave, are subjected to and are satisfied that such sentiments will be con- all "the privations of a camp or a march," and are curred in by practical printers of both parties.
